Encoding UTF-8

LazyData true

RoxygenNote 7.2.1

R topics documented:

---

hello	*Hello, World!*

Description

Prints 'Hello, world!'.

Usage

```
hello()
```

Examples

```
hello()
```

---

myFunction1	*function to display a message*

Description

function to display a message

Usage

```
myFunction1(x = NULL)
```

Arguments

x   a parameter to test whether the function receives a value

Examples

```
myFunction1("test parameter")
```

---

one.holdout.cv	*one.holdout.cv*

Description

Funcion que recibe un dataset y retorna los sub datasets correspondientes a entrenamiento (training) y pruebas (testing)

Usage

```
one.holdout.cv(dataset, percentTrain = 0.7)
```

Arguments

dataset	Matriz de datos con n muestras (filas) y m variables (columnas)
percentTrain	Numero decimal que corresponde al porcentaje de muestras deseadas para entrenamiento.

Value

Una lista con dos matrices. training, la matriz de entrenamiento y testing, la matriz de prueba.

Author(s)

Andres Mauricio Cifuentes Bernal

Examples

```
library(tidyverse)
data <- one.holdout.cv(dataset = iris
                       , percentTrain = 0.75)
View(data$training)
View(data$testing)
```
